- (e) Works to be located  
Give 40-acre subdivision on which works will be located, or locate by course and distance to a section-corner.
- (f) Point of return of water to stream  
Describe in same manner as point of diversion.
- (g) State number and kinds of animals to be watered
- (h) Use will begin about              and end about             , of each year.  
Month Month
- (i) Remarks

### DESCRIPTION OF PROPOSED WORKS

Water is to be stored in a reservoir on Said NE<sup>4</sup> of Sec. 15 and State manner in which water is to be diverted, whether by dam or other works, whether through pipes, ditches, flumes, or other conduits. If water conducted from reservoir by ditch and pipe line and used for irrigation is to be stored in reservoirs, it should be so stated and the location of the reservoir should be given with reference to the legal subdivisions and domestic uses; Storage reservoir to have a capacity of approximately 23 acre feet.

5. Estimated cost of works 10,000
6. Estimated time required to construct works 3 years
7. Remarks It is the intention of applicant to store the flood waters;  
For use of applicant  
to have the reservoir filled in the Spring and fill and refill the reservoir until 200 acre feet of water has been used.

### APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions: This Permit for storage purposes is issued subject to all prior rights on the source. It is understood that a suitable headgate will be installed to facilitate the measurement and control of water and that the proof of beneficial use when filed will include the amounts of water that have been stored and placed to beneficial use. The State reserves the right to regulate the use of the water herein granted at any and all times.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 200 acre feet per second.

Actual construction work shall begin on or before November 1, 1931

Proof of commencement of work shall be filed before December 1, 1931

Work must be prosecuted with reasonable diligence and be completed on or before November 1, 1933

Proof of completion of work shall be filed before December 1, 1933

Application of water to beneficial use shall be made on or before November 1, 1936. Proof of the application of water to beneficial use must be filed with State Engineer on or before December 1, 1936.

Proof of later filed - 10-4-31
